

Toileting Policy

All children must be toilet trained before entering school

The children are expected to go to the bathroom when they feel the need, but children in the Nursery program will be regularly reminded, throughout the school day.

Rather than lining everyone up at once, children can use the bathrooms during center time, washing up for snack times, and before recess, etc. We encourage children to take responsibility for themselves, parents can aid this by dressing children in pants with elastic tops or other easily managed clothing.

Hand washing is a consistent part of the toilet routine and the hand washing procedure is followed.

Mishaps

Mishaps do occur; parents can assist staff by providing extra clothing for their child. In the case of a bowel accident, we will call the parent to come and change their child, since we do not have changing facilities.
